2028_REC_OOPS using Java_Week 12_Q1

Attempt : 2

Total Mark : 10

Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

Sabrina is working on a project that involves analyzing a set of numbers. In her exploration, she encounters scenarios where extracting even numbers and finding their sum is essential.

Create a program that calculates the sum of even numbers from a given array of integers using a lambda expression.

Input Format

The first line of input consists of an integer N, representing the size of the array.

The second line consists of N space-separated integers, representing the elements of the array.

Output Format

The output prints the sum of the even integers from the array.

Refer to the sample output for formatting specifications.

Sample Test Case

Input: 3

29 37 45

Output: 0

Answer

```
// You are using Java
import java.util.*;
class demo{
    public static void main(String args[]){
        Scanner sc= new Scanner(System.in);
        int n = sc.nextInt();
        int arr[] = new int[n];
        int sum=0;
        for(int i=0 ; i<n ; i++){
            arr[i]=sc.nextInt();
            if(arr[i]%2==0){
                sum+=arr[i];
            }
        }
        System.out.println(sum);
    }
}
```

Status : Correct

Marks : 10/10
